

SMART BENGALURU

Transportation & Connectivity

Operational Proposed Ralignment

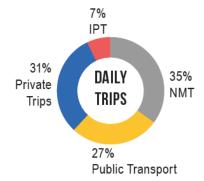

METRO NETWORK

42.3 km operational, 72.09 km proposed

BUS PASSENGERS

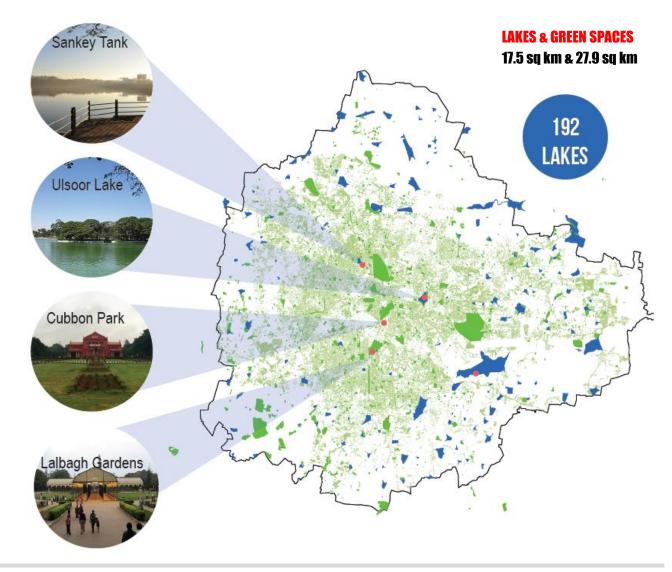

Source: mobility indicators, DULT -2010

Roads: 13,000 km Metro: 42.3 km Bus coverage: 11.96 lakh km Railway:118.5 km Footpaths: 3435 km

Environment

AREAS OF CONCERN

Severe traffic congestion

Inadequate public transport facilities

Inadequate pedestrian and disable friendly infrastructure

Reduction of open spaces/ lakes

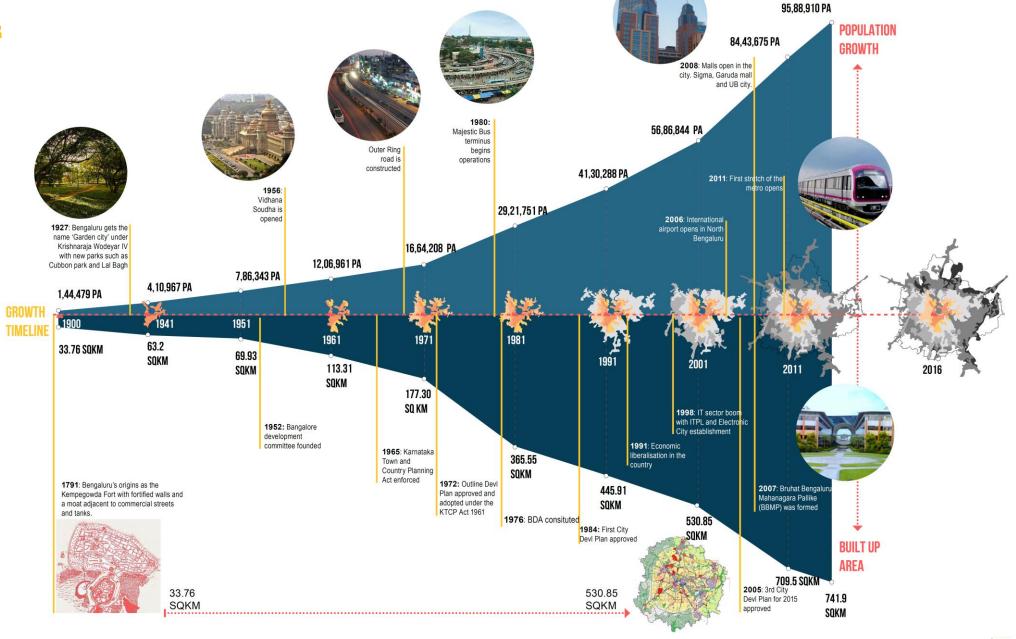

Contamination of water bodies

Sub optimal solid waste management

Evolution 8

Self Assessment

MOBILITY AND TRANSPORT

13000 km road network

2428 kms (18%) of public bus transit system

52L (53%) Daily ridership in BMTC

42.30 kms of Metro rail network

1% signalised intersection

26% footpath available

WATER SUPPLY

94 LPCD Water supply

38% coverage of water supply connection

50% quality of water supply

49% Non revenue water

95.5% metered connection 1400 smart meters

2% Houses with rain water harvesting facility

WASTE WATER & SWM

66.3% Coverage of Sewerage network

62.5% sewage treated in STPs

30 - 40% Segregation at source

60% collection at source

STORM WATER DRAINAGE

850 km Storm water drain

47% natural stream missing

38% Underground drainage network

SAFETY AND SECURITY

50% reduction in road accidents

21758 repeated offenders driving licenses sent for suspension

400 surveillance cameras

VISION FOR BENGALURU

Livable Bengaluru

...And, a smart city is built by building smart communities

PROPOSED INTERVENTIONS

ABD & Pan City

AREA BASED DEVELOPMENT PROJECTS

10 areas of interventions

PROJECT 1: Revitalization of historic heart of city

Road redevelopment under Tender S.U.R.E. model

PROJECT 2. Integrated mobility towards creating vibrant destination

- · Shivajinagar bus station and Russell Market
- Kempegowda Bus Stand (Majestic)

PROJECT 3: Redevelopment of historic economic centres

- KR Market
- Malleshwaram Market

PROJECT 4: Innovation of downstream clean up of drainage system

- Ulsoor lake
- Sankey Tank

PROJECT 5: Protection & redevelopment of centrally located parkland

Cubbon Park

PROJECT 6: Increasing affordable housing stock through slum redevelopment

Swathanthra Palya Slum redevelopment, Gandhinagar

PROJECT 7: Retrofitting of a health care facility

K.C General Hospital

PAN CITY PROJECT

8 proposals on governance and public services

PROJECT 1: CITIZEN CENTRIC E-GOVERNANCE AND SERVICES

GOVERNANCE

- · Municipal finance reforms
- Participatory budgeting
- Improvement in property tax collections
- · Grievance management
- · Online project information system for public project management
- · Improvement of neighborhood safety

PUBLIC SERVICES

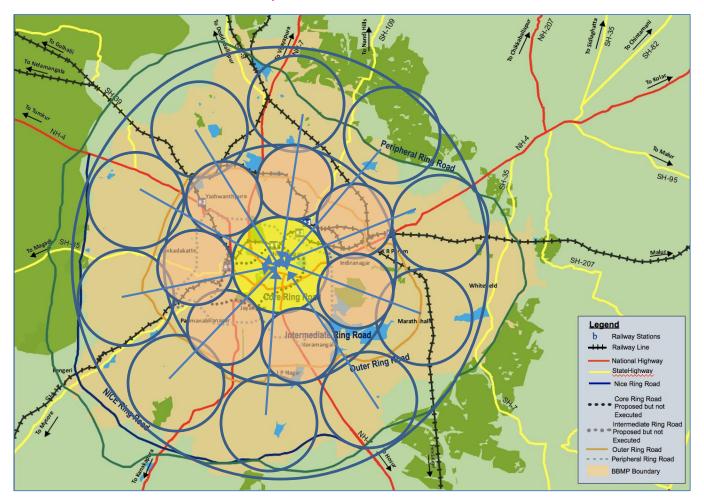

- BTRIPS Bengaluru Travel Related Information and Planning System
- · Open data portal for citizen information and innovation

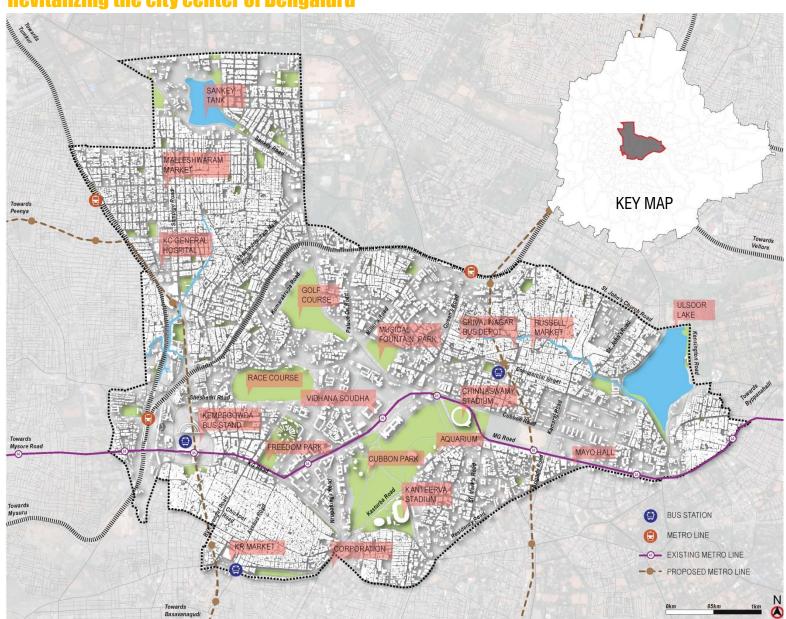

Area for maximum impact

"BELONGS TO, AND IS USED BY EVERYONE"

Revitalizing the city center of Bengaluru

AREA: 5380 ACRES (21.8 SQ KM)

POPULATION: 5,24,000

17 WARDS

ABD LANDMARKS

City Layers

LAND USE MAP **28% Commercial, 19% Public & Semi Public , 13% Mixed Use**

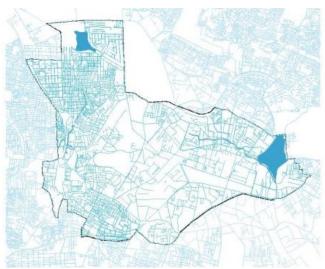

TRANSPORTATION NETWORK

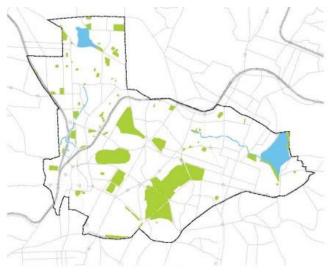

97 km of major Roads

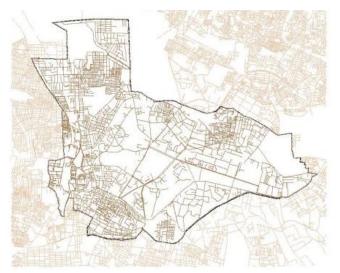

BUILT vs OPEN **29% Built up**

STORM WATER DRAIN NETWORK **556 km within ABD**

PARKS, OPEN SPACES & LAKES 13% Open space

SEWERAGE NETWORK
417 km within ABD

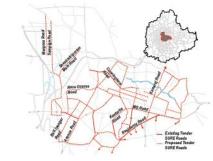

1. Revitalization Of Historic Heart Of City

Redevelopment under Tender S.U.R.E.

Proposed for 66% of Major roads in ABD

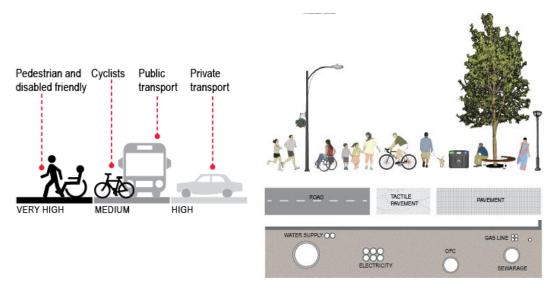

...into a walking, cycling, tree lined, economically

vibrant, environmentally sensible and inclusive center

• Infrastructure revitalization (increase in capacity and coverage)- Surface drainage, sewage network, water supply, power and telecommunication

• The city core needs highest degree of walkability owing to highest footfall count

Tender S.U.R.E.	Promoting NMT	Improved public amenities	Energy efficiency/ conservation	Smart S.U.R.E.
Uniform travel lanes, underground services, smart parking, landscaping, street features	Pedestrian walkway and cycling network, app enabled public bicycle share points	Smart bus shelters with digital information boards, smart dustbins, environmental sensors, e-toilets, water ATMs, smart telecom towers	Vehicle charging points, Solar lighting/ energy efficient lighting, electric buses, e rickshaw stands with charging points	Based on PPP annuity model. Cost recovery on O&M from telecom companies

EXISTING PRECEDENT: 9 Roads – 11.5 km executed; 150 electric buses (BMTC proposal)

MART BENGALLIRLI

2. Integrated Mobility Towards Creating Vibrant Destination

Shivajinagar Bus Depot + Russell Market, Kempegowda Bus Stand

Integrated Development Of Transport Hub, Market, Civic Park & Connecting Road

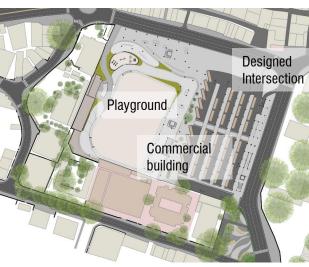

Integrating transport hubs, vibrant market, school and

community civic space towards a livelihood destination

- Building on Tender SURE and Proposed Metro Station
- Connecting Shivajinagar bus depot to Russell Market through overhead pedestrian bridge
- Reuse of underutilized public space and infrastructure towards economic viability

"

Shivajinagar Bus Depot - Proposed

Redevelopment of Shivajinagar	Bus	Depot
& Civic Park		

Bus routing in and around bus depot. Integrate metro network to bus transportation to increase regional connectivity Increased space allocation for economic activities

smart cubicles/ start-up hubs/ incubators within CBD, possibly on under utilized public holdings Integrated development of Russell Market

Retrofitting of historic market building

Improved parking in CBD

App enabled smart car parking with vehicle charging points

Retrofitting of Kempegowda Bus Stand (Majestic)

Digital information boards, way finding features, CCTV surveillence

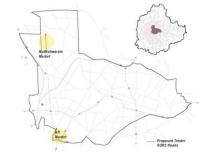

3. Upgradation & Redevelopment Of Historic Economic Centres

K R Market. Malleshwaram Market

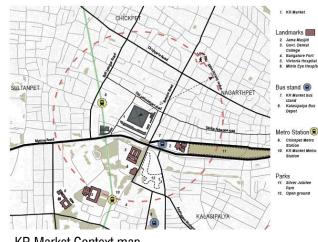

Footfall of 30,000/ day, 1249 vendors

Towards resilient markets: Connectivity with Metro Station, Reuse of

existing unused municipal built assets and Solving the garbage crisis

- Retrofitting of historic market center through improved public transport connectivity and efficient circulation management
- Efficient vending and increased retail footprint through efficient space management
- Integrating proposed metro station to market through over head pedestrian bridge

Hygenic vending conditions by setting up effective waste management system Strenthening existing loading / unloading

Designated vending areas for better pedestrian movement

Retaining heritage character of market precinct

Pedestrian friendly shopping experience Enhancing existing transit hub

Reducing conjestion and improving

Connectivity with metro station

KR Market - Proposed entrance

ket Context map Proposals for market redesign	ın
ket Context map Proposals fo	or market redesig

Redesign of KR Market	Organized vending	Solid waste management	Energy efficiency/ conservation	Redevelopment of Malleshwaram Market
Heritage conservation, organizing vehicular and pedestrian movement around the market, provision of loading unloading bays and time managed goods movement	Creating designated vending zones with plazas – smart vendor kiosks	Sensor based smart dustbins, recycling unit, composting unit	Roof top solar panels, solar lighting/ energy efficient lighting	CCTV surveillance, e-toilets, water ATMs, Public bicycle share points

4. Innovation Of Downstream Clean Up Of Drainage System

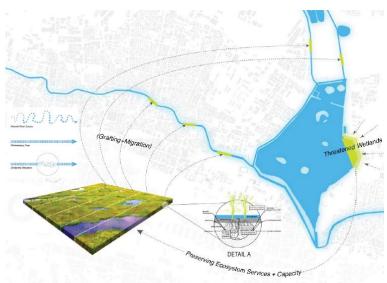

Ulsoor Lake, Sankey Lake

200 acres of lake precincts & 2.5 km of nallah clean up

Developing a water body as a replicable model towards reclaiming the dying historic drainage system of the city

Sawy Equi

- Green initiatives for water body clean up
- Increased ground water recharge
- Creating a vibrant and accessible public space within the ABD

Initiatives for Ulsoor lake and nallah clean up

Bio swales along lake and nallah

DEWATs (Decentralised waste water treatment) for reducing contamination of water body

Proposed pedestrian and bicycle network around Ulsoor lake

Ulsoor lake and nallah clean up	Creating public space	Improved public amenities	Sankey tank
Introduction of DEWAT system, Green Bridges for natural filtration and Bio-Swales in lake and nallah for reducing water contamination	Lake front development as an active public space, Pedestrian and cycle network around the lake	Provision of e-toilets, Smart bins, Public space features/ furniture, public bicycle share points, energy efficient lighting, Solar trees and CCTV installation for improved security	Pedestrian and cycle network around the lake, smart features, children's play equipment, public space furniture

5. Protection & Redevelopment Of The Centrally Located Parkland

Cubbon Park

25000 foot fall / day (weekends)

to become a local community asset

- Revitalizing the central city green through improved pedestrian connectivity and place making
- Integrate green network to heritage and cultural landmarks around Cubbon park

Cubbon Park

6. Increasing Affordable Housing Stock Through Slum Redevelopment

Swathanthra Palya Slum (Gandhinagar) Housing + road + Utility Services

improving quality of life

- Upgrading of housing units
- physical infrastructure roads, water supply, sanitation, street lighting
- social infrastructure Community centre

Proposed slum upgradation

7. Retrofitting Of A Healtch Care Facility

K.C. General Hospital

Building redesign + abutting road under Tender SURE

improving a health care centre

- Building redesign of health care centre
- Heritage conservation of building

Existing KC General Hospital

Cubbon Park	Safety and security	Rain water harvesting	Affordable housing	K.C. General hospital
Digital information board (activities, events, eateries and places of interest), tourist information kiosk, seating	CCTV Installation and improved energy efficient lighting	Collection and re use towards ground water recharge	Housing units, physical infrastructure, social infrastructure, roof top solar panel on community centre, energy efficient solar lighting	CCTV surveillance, Roof top solar panels, public bicycle share points, Tender SURE road for abutting
_				

PAN CITY INTERVENTIONS

Project: Citizen Centric E-Governance and Services

PAN CITY PROPOSALS

Project 1: Citizen Centric E-governance And Services

1. Grievance Management

- Central Command Centre for accepting citizen queries across agencies
- Smart Kiosk for people without digital reach

2. Municipal Finance Reforms

- Municipal Audits
- City dashboard as a single MIS
- Surveying wards and streets to accurately report condition of infrastructure

3. Participatory Budgeting

- · Campaigns and drive to involve residents and publish the collated, analysed results
- · Citizen app that consolidates neighbourhood and ward level inputs from the citizens

Improvement of Neighborhood Safety

- Community Policing
- CCTV monitoring

5. Improvement in Property Tax Collections

• 3D building mapping for city using drone technology for property assessment, public assets, regulation and revenue augmentation

6. B-TRIPS (Bengaluru Transport related information and planning system)

- Single smart card for all public transport
- PIS system

7. Public Project Management

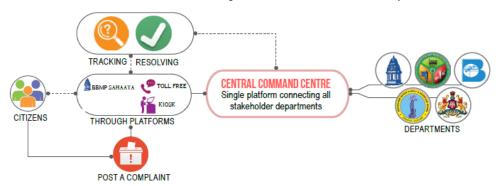

Public Services • Online project information system displaying projects information

8. Data for Citizens

• Open data portal is based on the ideology of providing spatial data to citizens

1. Grievance Management: Grievance redressal steps

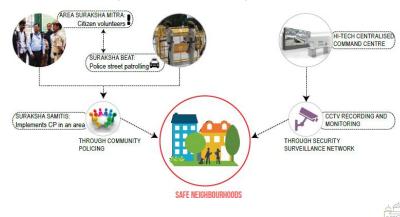

2. Municipal Finance Reforms: Street Quality Report Benefits

3. Participatory Budget

4. Key Initiatives for Safe Neighbourhoods

Thank You
